

Kingman County has been granted \$1.4 Million from the State of Kansas to fund COVID-19 response activities.

Kingman County is interested to learn about the impacts COVID-19 has had on your organization and the needs for responding to those impacts. We are asking for information from cities, businesses, non-profit organizations that provide essential services, and other organizations that provide vital services and community benefit to the residents of Kingman County.

TIME IS OF THE ESSENCE! Please complete the attached Community Based Needs survey by August 28, 2020 and submit it to KingmanCountyCares@kingmancoks.org. Please place "Business and Non-Profit Survey" as the subject line of your email. The information gathered in this survey will help the Board of Commissioners determine the funding that will be made available, based on the types of needs identified, as well as identify any unanticipated needs.

If you have questions, please contact: Richard Schott, (620) 491-0288, rschott@kingmancoks.org.
